By Appointment [You can always stop in and ask questions anytime the light is on in my office. If I am busy when you stop by, we will arrange for a mutually convenient time to meet. It is also a good idea to email or phone to schedule appointments].

Class hours: Tuesdays and Thursdays, 12:30 PM - 1:45 PM, HOEC0217

Objective of the course: This course provides Masters-level training in microeconomic theory and its applications to food, agriculture and the environment. The course focuses on the traditional topics of microeconomics, behavior of firms, households and markets, in more depth and rigor than encountered in undergraduate courses. For each topic, theories are explained and then applications relevant to food, agricultural, environment and resource issues are described. The emphasis will be on understanding microeconomic applications rather than theoretical or mathematical modeling. Upon completion of the course, students should have the skills to function as applied microeconomists in the real world.

Prerequisites: Principle of microeconomics; Survey of calculus or equivalent; Graduate standing. Students are encouraged to take intermediate microeconomics in preparation for this course.

- Answers to odd-numbered exercises are at the end of the textbook.

Course website: Most course materials will be posted on Blackboard (Syllabus, Class notes, Problem Set answers, Exam info etc.)

Grading: 6 Problem sets × 5% = 30%
2 EXAMs × 20% = 40%
FINAL EXAM 20%
In-class Discussions† 10%

†There will be two or three classes allocated to discussions. Discussion questions will be distributed in advance. These questions will cover modeling exercises, empirical applications and policy questions. You are also encouraged to submit your own discussion questions.

**Classroom Rules**

- Be on time for classes. No cellphone/smart phone/iPad.
- Questions and discussions relevant to class are more than welcome.

- **Academic Integrity—Academic Honesty.** "As a core part of its mission, the University of Arkansas provides students with the opportunity to further their educational goals through programs of study and research in an environment that promotes freedom of inquiry and academic responsibility. Accomplishing this mission is only possible when intellectual honesty and individual integrity prevail. Each University of Arkansas student is required to be familiar with and abide by the University’s ‘Academic Integrity Policy’ at honesty.uark.edu. Students with questions about how these policies apply to a particular course or assignment should immediately contact their instructor." Any scholastic dishonesty of yours will result in points taken off your Problem Sets or exams or even an F for the class grade. If you are caught cheating, campus procedures will be followed to exact the appropriate punishment.

**Other Information**

**Emergency Preparedness**— The University of Arkansas is prepared for a wide range of emergencies. Detailed information and contact numbers: [http://emergency.uark.edu/](http://emergency.uark.edu/)

**Inclement Weather**— We will follow the campus’s inclement weather policy (link below). If campus is closed, no lecture will be given. No assignment would be graded down in such a case and an exam would be re-scheduled. During inclement weather the instructor will try to communicate with students via e-mail.
